

Line Manager (FCXL)

Allowing decision makers to track maintenance statuses in real time for improved efficiency

FleetCycle[®] Line Manager is an innovative execution solution for maintenance personnel working on aircraft while it is in service. This solution equips line maintenance personnel with the necessary tools to optimize routine and non-routine task performances. These tasks can be carried out at a line station during an aircraft turn around or an overnight stop.

FleetCycle[®] Line Manager is included in the FleetCycle[®] AERO, MRO, and Defense solutions—designed to ensure aircraft are fully airworthy and maintained in line with maintenance programs

Demonstrated Success

FCXL has proven to improve efficiencies and reduce costs considerably within a line maintenance environment. Existing customers operate up to 25% more efficiently after the implementation of the FleetCycle® Line Manager.

Mobile Solution on the line

Customers can build a more flexible solution when FleetCycle® Line Manager is combined with FleetCycle® Electronic Logbook (FCELB). This intuitive combination will enable your line maintenance personnel to achieve dramatically increased levels of efficiency.

FCXL takes the information that has been compiled in a work order and presents the information to line personnel for execution.

Benefits for Airlines, MROs and Defense

- Graphical representation of current state of aircraft in service
- Tabular summary of fleet (or aircraft) performance
- Real time visibility of in-service defects or operational issues
- Fully mobile solution operating on Windows, Android and iOS
- Integration with electronic logbooks
- Reduced bottleneck around aircraft technical logbook
- Maximum aircraft availability

ABOUT EMPOWERMX

EmpowerMX is a world leader in providing intelligent maintenance solutions for today's aircraft. We are a global software company that creates innovative aviation maintenance solutions.

Our FleetCycle® software solution with its modules enables customers to significantly improve their entire maintenance operation.

Founded in 1999 and headquartered in Dallas, Texas, with offices in Europe and Far East, EmpowerMX is uniquely focused on the aircraft maintenance industry and is managed by aviation maintenance experts.
